Programs for Children and Families:

Story Time: Come listen to a story, sing, dance, play, and learn with us at our weekly story times. This program is best for families with children under age 5, but is open to all. Seating is limited to the first 15 people with tickets. Tickets can be claimed on a first-come, first-served basis Monday mornings at the Youth Services desk beginning at 9AM. Due to the popularity of our regularly scheduled story times, we typically cannot accommodate large school groups. Please call Elia at 928-373-6468 to discuss alternative options for your larger group.

Evening Story Time: Not able to make it to our story times in the morning? No problem! Evening story time is for families with kids of all ages (though it's best for kids ages 2-6) who want to enjoy stories, songs and fun activities, but prefer to attend programs later in the day. Capacity will be limited, so stop by the Youth Services desk after 5PM to claim your ticket.

Barks and Books: Children ages 6 -12 are invited to sign up to read to one of our friendly guide dogs, Bella and Ricky. Reading to dogs has been shown to help improve emerging reading skills and make children more confident readers. Slots are limited, so sign up for your spot at the Youth Services desk starting at 9AM the day of the program.

Math Fluency With Cards: Did you know you can learn all kinds of cool math skills using just a deck of ordinary playing cards? Miss Frances will teach you how in this fun program, and you get to take a deck of cards home with you courtesy of our friends at the Quechan Tribe, Paradise Casino and the Q! (This program is recommended for ages 6-9)

Lego Club: Make new friends and build as far as your imagination will allow at our after school architecture-based Lego program. This program is for kids ages 8-12 and their caregivers aged 16 and older.

Artists Club: Each month, Jennichelle will teach kids ages 8-12 about a different famous artist and their contribution to the world. Then, kids will get to paint in the style of the featured artist and take home their beautiful artwork! Space is limited so get there early! This month's featured artist is Paul Klee. We will be learning all about cubism, and how shapes influenced Klee's works.

Programs for Teens:

3D Modeling for Teens: Learn to use TinkerCad freeware to create your own STL files. We will print out your design on our library's 3D printer for you to take home and keep. Space is limited and participants must have a valid email address. Open to teens ages 13-18 only please.

Board Games Club: Teens, come learn to play a new tabletop game, learn some fun facts and history about each game and make friends at our new Board Game Club. Each week in October we will feature a new game. It's ok if you have never played them, we will teach you how! Open to teens ages 13-18 only please.

Please note, the library will be closed on November 11th in observance of Veterans' Day and on the 24th and 25th in observance of Thanksgiving.
